

# Would you like to have more control over your (future) financial situation?

Perhaps because you are considering participating in a generational scheme or the Heavy Occupations Scheme? Or because your personal financial situation is changing due to a life event?

**THEN REGISTER FOR A FREE PERSONAL FINANCIAL ADVICE CONSULTATION**

## WHAT DOES THE FINANCIAL ADVICE CONSULTATION OFFER?

- In the advice session, a financial advisor will discuss with you what the changes in your employment conditions, career, or personal situation mean for your financial situation.
- You will gain more insight into your (future) financial situation, including understanding your income and expenses, pension, and assets. Possible debts will also be made clear.
- After the advice session, you can take more control over your career and/or financial situation.

With this project, SoFoKleS hopes to contribute to preventing and limiting the consequences of heavy working conditions that lead to an increased risk of health issues or premature retirement. It also increases your own control over the situation.

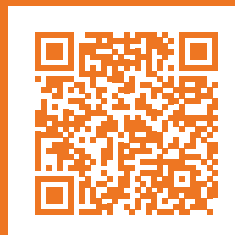

## WHAT DOES SOFOKLES OFFER YOU?

SoFoKleS gladly invests in the sustainable employability of employees in the university medical centres. That is why we offer you a free financial advice consultation. You can choose between an in-person or digital meeting. As it is a confidential conversation, you can sign up directly with the service provider. The contents of the conversation will not be shared with your employer.

## WHO IS IT FOR?

- For employees who are eligible for participation in the generational scheme or the Heavy Occupations Scheme.
- Young generations facing financial decisions or major life changes, such as having children, buying a house, going through a divorce, and so on.

## INTERESTED OR WANT TO LEARN MORE?

Please register via the link or QR code, and SoFoKleS will contact you to answer your questions and find the best option for you.
